My name is Melani, I'm 23 years old, and I'm a Full Stack Developer. I studied at Henry Bootcamp and have experience in challenging projects, both on the front-end and back-end. My latest independent project focused on creating a Pokémon page. Additionally, I collaborated on a group project for a surf product store, where I was involved in front-end development.

My greatest virtue is my ability to quickly grasp new concepts and adapt to changes. I greatly enjoy teamwork, valuing the opportunity to share knowledge and face new challenges. My experience as a Teaching Assistant reinforces my ability to contribute to team growth and highlights my commitment to collaborative work. I am excited to bring these skills and positive attitudes to your company.

PROJECTS

Full Stack Web Developer - Pokemons
Academic Experience: Henry Bootcamp
Dec 2023 - Dec 2023

- Generate Pokémon cards displaying basic information.
- Implement a detailed view for each Pokémon upon clicking on its card.
- Allow users to filter Pokémon by type, strength, alphabetical order, and
- combined filters.
- Incorporate a search functionality to aid Pokémon discovery.
- Enable clients to create custom Pokémon.

Front-end: JavaScript, ReactJs, Redux, CSS modules y HTML.
Back-end: JavaScript.
Database: PostgreSQL y Sequelize.
Repository: https://github.com/Melanialassia/PI-Pokemon

Front-end Developer - E-Comerce "La Ola Urbana"
Academic Experience: Henry Bootcamp
Jan 2024 - Feb 2023

- Local login, registration, and Google registration.
- User profile creation and editing.
- Integration of payment gateway (Mercado Pago).
- Sending emails (Nodemailer).
- Implementation of a favorites system allowing customers to mark products of interest.
- Exclusive rating system for customers who have made purchases, allowing them to rate their experience. These ratings and recommendations are visible to other users, providing additional guidance when making purchasing decisions.

- Design and development of a comprehensive administration panel to manage users, sales, and products, including a form for product creation and utilizing Cloudinary for managing images.

Front-end: https://github.com/Melanialassia/ClientSurf

Back-end: https://github.com/Melanialassia/ServerSurf
